

“Here at Serenita we strive towards enabling service users to maximize their potential and promoting independent living skills. We are committed to providing a safe environment for service users where quality of care is paramount. All service users are empowered through personalised support and involvement is highly regarded.”

Serenita Care Home Manager

Serenita

Type of care:

Providing specialist support for individuals living with mental health problems such as Korsakoff's syndrome and the effects of Alcohol Related Brain Damage.

This large Victorian residence is located in Weston-super-Mare within walking distance of the seafront and the famous pier.

The facilities at Serenita are provided with the intention of enabling independence. The large spacious lounge-diner, historically a ballroom, is a fantastic communal area for residents. Here they can socialise and develop new skills together, through an ongoing activity programme or use the computers with internet access. Our activities coordinator ensures that there is always something going on.

Each day, residents can be found getting involved in cooking, baking, art classes, gardening and growing fruit and vegetables.

Being able to provide a nutritional meal is an important skill and a rewarding and enjoyable social activity for many. Everyone plays an active role in all manner of tasks that keep the home running smoothly. Helping with the laundry, hoovering and general domestic duties are just some of the responsibilities undertaken by many of the residents.

Serenita has a relaxed and friendly atmosphere. There is always someone looking for a challenge in our games area which offers a pool table, table tennis, darts and a bistro-style cafe area. Residents can also choose to use the homes fitness equipment, great for improving mobility or general health and wellbeing. Yoga is also available for those individuals who wish to take part.

“Serenita provides the supportive environment, skills and time required to make a real difference to people’s lives. It’s great to see the vitality instilled in people here and the sense of purpose they acquire.”

Serenita Care Home Manager

3 Step Enablement Programme

With over 30 years experience in the field of alcohol-related brain damage, we have combined our knowledge and expertise to develop a way ahead.

This 3 Step Enablement Programme helps an individual to take back control of their life and regain skills to live independently and alcohol free. See our brochure for more details or call the home direct.

Activities

We understand the importance of meaningful activities. They play a vital role in helping residents live life to the full, whatever their physical ability. Our activities are not only designed to engage mind, body and spirit but also to respect and honour each residents’ individuality. The Activities Coordinator is responsible for organising and delivering a fun packed, varied programme which includes trips out and weekly swimming club, bingo and visits to places of interest.

Visitors are always welcome, call in at your convenience to see for yourself how we support independence.
